

## **RSIG POSTER AWARDS**

This year RSIG will be providing 2 poster awards: 1 for a student and 1 for a professional. Recipients of the poster awards will be presented with a certificate as well as a \$100 prize at the end of the conference day. All abstracts submitted for a poster presentation will be considered for the poster awards. Posters will be evaluated anonymously (i.e., identifiers removed) using the abstract review guidelines to select the top 10 student posters and top 5 professional posters. This short-list of best posters will be evaluated a second time at the conference. On the day of the conference, the RSIG conference committee will chat with the finalists about their poster (5 minutes) and rate the posters using the abstract rating criteria (described below) along with considering the visual presentation of the poster (e.g., how does the poster look? Is it a clear, comprehensive, readable poster?).
